

COLOSSAL TRAINING

ABOUT COLOSSAL

At Colossal Training we provide a path for your learning experience through the delivery of high quality training courses throughout the UK and worldwide. We guarantee the training you will receive will be to the highest of standards and the skills you learn will be current so as to prepare you for the career path you wish to take.

Colossal Mission - We believe that every student deserves the right to be taught to the very highest of standards and we pride ourselves on being able to back this up by using subject matter professionals who relate to real life experiences and expertise.

COURSE INFORMATION

The course is to provide seafarers with the necessary knowledge, understanding and proficiency to carry out designated fire duties in accordance with international regulations. Candidates will develop a basic knowledge to take appropriate action for the safety of personnel, of the ship and to use appliances correctly.

On successful completion of the course you will be awarded a Fire Prevention and Fire Fighting certificate, accredited by the UK Maritime & Coastguard Agency (MCA).

ENTRY REQUIREMENT

There are no formal educational requirements to undertake this course, although all participants must be 16 years or over. Some aspects of this course are physically demanding. We therefore require all students to complete a physical declaration form.
